Eagleye Micro DVR

The Eagleye Micro is the world's smallest body worn digital video recorder for law enforcement and security personnel.

“Big things come in small packages”

180 minutes of video with supplied 4GB memory card. The Eagleye Micro has a built in microphone and crisp wide-view lens, so it can record what you see and hear, even when you're away from your vehicle. With a simple press of a button, the Eagleye Micro begins recording. Video can be viewed or downloaded on any computer by plugging the unit into a USB port with the supplied cable.

- Resolution: 2,000,000 color CMOS
- View angle: 72°
- Video format: VGA 640 x 480 at 25fps
